

RETURN MATERIALS AUTHORISATION PROCESS

This document outlines Genesis Technical System's Return Material Authorization (RMA) process.

The process is initiated from an online RMA form either by a Customer Service agent or directly by the customer within the [secure portal](#) and a unique ticket is assigned.

A team manager will review the item on receipt and decide on repair or dispatch to the customer a new product.

The customer will be informed of the status and stage of the process automatically by email.

Process to Follow

Standard Warranty Policy

The length of a warranty term may differ between product models. Please refer to the specific warranty for your product.

Technical Support Contacts

If your Genesis Technical System's product exhibits signs of failure, you must contact our Customer Support department to verify the product failure. If the Customer Service Representative cannot correct the problem by remote support methods i.e. phone or Email support and determines that the problem is the result of product failure covered under the Genesis Technical System's warranty policy, then a Return Materials Authorisation (RMA) number will be issued.

Customers must request an RMA through the on-line portal.

RMA Information

The following information is required to assign an RMA.

1. Contact Name, Department and Company
2. Where the item was purchased (if applicable)
3. Your Phone Number
4. Your Fax Number
5. Your Email Address
6. Product Model or Part Number (e.g. xxxxxx)
7. Product Serial Number
8. Purchasing date
9. Order reference/Proof of purchase
10. Description of Failure or Problem

Requests for RMA are typically processed during working day between 09:00 to 18:00 GMT

RMA Confirmation will be by e-mail. The RMA Confirmation is the RMA form with the assigned RMA number. This form must be put in the packaging when the product is returned.

RMA v1.0 13 February 2014

RMA Return Shipment

Packaging

Please follow these guidelines when returning product to Genesis Technical Systems

- Original packaging should be used if available to minimize the potential for shipment damage.
- Ship the RMA items via traceable means to the below address
- Write the RMA number on at least two (2) outside surfaces of each return package
- Write RMA number on the Air Waybill or Shipper
- Allow 30 days Turn Around Time after receipt of RMA by Genesis Technical Systems
- If items are damaged during return shipment due to insufficient packaging, it will be left to Genesis Technical Systems' discretion to determine whether or not the product is repairable.

3.1 Address

All RMA packages should be shipped to:

Genesis Technical Systems (UK) Limited
The Venture Centre
Sir William Lyons Road
Coventry
CV4 7EZ
United Kingdom

Tracking

All RMA returned items must be sent via traceable means. Examples would be UPS, FedEx, or DHL. Be sure to retain the tracking information for your records. The customer is responsible for the product until it is received by Genesis Technical Systems

Genesis Technical Systems is liable for the returned item upon the receipt of shipment.

Delivery Charges

The customer is responsible for paying shipment charges when returning the product to Genesis Technical Systems.

Genesis Technical Systems will pay for shipment of the repaired items back to the customer.

RMA Turnaround Time

Standard

Within 30 days after receipt of returned units, the repaired or replacement item will be ready for return shipment.

Dead-on-Arrival Expedited

Dead-on-Arrival units will be repaired or replaced within two (2) working days from receipt of returned parts. No expedited repair or shipment fees will be charged to the customer.

RMA v1.0 13 February 2014

RMA Repair and Test Procedures

All items returned under an RMA will be repaired, or at Genesis Technical Systems' option replaced with either new or factory refurbished parts. If a returned product is determined to have been tampered with, damaged or misused, it will be handled according to the out-of-warranty policy below. All repaired or replacement parts will have successfully passed the appropriate manufacturing quality assurance test procedures. These are the same tests that are utilized to verify "new build" parts as manufactured by Genesis Technical Systems.

Out-of-Warranty repaired items carry a ninety (90) day warranty.

In-Warranty repaired items are warranted for the remainder of the original warranty or ninety (90) days, whichever expires later.

RMA Closing Procedure

If Genesis Technical Systems has not received the RMA requested items from the customer within thirty (30) days of the RMA assignment date, the RMA will be closed.

Genesis Technical Systems will not accept any packages without an open, valid RMA number appearing on at least 2 surfaces on the box/packaging and reference to the RMA number on the shipper or airwaybill.

Only the specific items listed on the RMA will be accepted. All other items will be returned to the customer at the customer's expense.

After return shipment of a repaired/replacement part to the customer, Genesis Technical System will close the RMA.
